VOTES CAST FOR PUBLIC QUESTIONS

Public Question No. 1

Freeze On Nuclear Arms Escalation

Do you support a mutual United States-Soviet Union nuclear weapons "freeze" and urge the government of the United States:

(1) to propose to the government of the Soviet Union that both countries immediately agree to a mutual, verifiable halt of all further testing, production and deployment of nuclear warheads, missiles, and delivery systems as a first step toward mutual, balanced reduction, and

(2) to apply the money saved to human needs and tax reduction?

INTERPRETIVE STATEMENT

"This non-binding referendum, if approved by the public, would demonstrate the voters' support of a nuclear weapons freeze and would direct the Secretary of State to transmit the results of these voters' opinions on this question to the President of the United States, the Speaker of the House of Representatives and President of the United States Senate no later than twenty (20) days after the conclusion of the election."

Public Question No. 2

Correctional Facilities Construction Bond Issue

Should the "Correctional Facilities Construction Bond Act of 1982," which authorizes the State to issue bonds in the amount of $170,000,000.00 for the planning, erection, acquisition, improvement, construction, reconstruction, development, extension, rehabilitation, demolition and equipping of correctional facilities; and to provide the means to pay the principal and interest on these bonds, be approved?

INTERPRETIVE STATEMENT

Approval of this act will authorize the sale of $170,000,000.00 in bonds to be used for construction and improvement of correctional facilities to alleviate present and anticipated serious problems of overcrowding in State and county prisons.

Public Question No. 3

Elimination of the Commitment of Federal Matching Funds Requirement for Construction of Certain Facilities for Disabled Veterans

Shall section 5 of the "New Jersey Public Purpose Buildings Construction Bond Act of 1980" be amended so as to remove the requirement of having a commitment of federal matching funds prior to beginning construction of long-term care facilities for disabled veterans?

INTERPRETIVE STATEMENT

Approval of this question will remove the requirement in the 1980 Public Purpose Buildings Construction Bond Act that federal matching funds be committed prior to beginning construction of nursing home facilities for disabled veterans. The 1980 bond act did not anticipate the federal budget freeze on moneys earmarked for the matching funds and it was not the original intention that these facilities should not go forward to the degree possible without the federal funds.

Public Question No. 4

Community Development Bond Issue

Should the "Community Development Bond Act of 1982," which authorizes the State to issue bonds in the amount of $85,000,000.00 to assist in the development of communities of this State by (1) capitalizing at $45,000,000.00 the New Jersey Local Development Financing Fund, which will assist industrial and commercial enterprises which encourage economic development within municipalities qualifying for State aid under P.L. 1978, c. 14, (2) financing $30,000,000.00 of loans and grants to local governments and other entities to revitalize distressed urban areas and promote the economic and social development of older central commercial districts in rural and developing communities, and, (3) financing $10,000,000.00 of financial assistance for the creation and development of urban industrial parks, be approved?

INTERPRETIVE STATEMENT

Approval of this act will authorize sale of $85,000,000.00 in general obligation bonds of the State, $45,000,000.00 of which will capitalize the New Jersey Local Development Financing Fund, $30,000,000.00 of which will be made available to counties, municipalities and other entities for the financial assistance of projects which encourage local revitalization and development, and $10,000,000.00 of which will be used to create and develop urban industrial parks. Moneys in the New Jersey Local Development Financing Fund will support economic development projects creating meaningful permanent private sector jobs. Moneys for local revitalization and development, and for urban industrial parks, will support capital construction projects which will revitalize distressed urban areas and promote the economic and social development of older central commercial districts in rural and developing communities.

Public Question No. 5

Riparian Lands

Do you approve the amendment to Article VIII, Section V, of the Constitution, which adds a new paragraph 2 which authorizes the Legislature to enact laws (1) to establish the criteria by which consideration shall be fixed for a grant or lease of any land subject to the assertion of a riparian claim by the State, which consideration may be less than the fair market value of the State's interest, or nominal; and (2) to differentiate, in establishing these criteria, between properties which are being utilized for different purposes?

INTERPRETIVE STATEMENT

The approval of this amendment would allow the Legislature to establish the basis for setting the prices at which the State may convey its interest in land it claims as riparian. These prices may be less than the fair market value of the State's interest, or nominal, and may be different for land used for different purposes in recognition of the burdens which may be imposed on certain classes of landowners affected by State riparian claims.
